2008 NCPERID Awards

Hollis Fait Scholarly Contribution Award

Individuals nominated must have a distinguished record of scholarly productivity in the area of physical education or recreation for individuals with disabilities including: Significant contributions to the knowledge or understanding of physical education/recreation for individuals with disabilities, Publications in journals and/or books that are widely used or quoted in the field of physical education/recreation for individuals with disabilities, A significant record of scholarly presentations at international, national, and regional professional meetings, Service on the editorial boards and/or as a reviewer of scholarly journals dealing with physical education/recreation for individuals with disabilities, and A record of scholarly/creative works in a specialized area of physical education/recreation for individuals with disabilities.

This year's recipient is *Jean Pyfer, Texas Woman's University*

William A. Hillman Distinguished Service Award

Individuals nominated must have an exemplary professional service record including: Elected or appointed service to NCPERID. This includes membership on the Board of Directors, committees, and/or ADVOCATE newsletter editorial board, Service to other organizations that deal with persons with disabilities in the same or similar functions as stated above, Service on editorial boards and/or reviewer of scholarly journals dealing with physical education/recreation for individuals with disabilities, Service as a community volunteer involved with programs and/or athletic events for individuals with disabilities (i.e., Special Olympics, USABA, NWAA, etc.), and Presentations before educational groups, conventions, media presentations, and other meetings held in the interest and promotion of physical education/recreation for individuals with disabilities.

This year's recipient is *Margaret Giannine, Director, Office on Disability, United State Department Health and Human Services*

The G. Lawrence Rarick Research Award

Individuals nominated must be recognized as a research scholar in the area of physical education/recreation for individuals with disabilities including: A distinguished record of research systematically directed toward specific questions that has helped advance knowledge in physical education/recreation for individuals with disabilities, Authorship of data based articles published in refereed journals or monographs of national or international significance, Research that has undergone refereed review and meets criteria established by academia, Research presentations at international, national, and regional professional meetings, and Direction of student research (theses and/or dissertations) dealing specifically with physical education/recreation for individuals with disabilities. Recipients of the Rarick award may be from other disciplines, but their research must have made a significant contribution to the area of physical education/recreation for individuals with disabilities.

This year's recipient is *Jiabei Zhang, Western Michigan University*
